

## Take Home Naloxone Implementation Checklist for Pharmacies

- Review current Good Samaritan law for your state
- Determine if you will dispense pursuant to prescription or will prescribe/dispense directly to public
  - If prescribing, develop CDTA for your pharmacy. Consider dosage forms available (IM vials, Intranasal PFS, Evzio injector, Narcan IN)
- Determine pricing for components of naloxone kit and training
- Order naloxone supplies
  - For Intramuscular (IM) Injection:
    - Naloxone 0.4mg/ml 1ml vial, 10pack, NDC 00409-1215-01
  - For Intranasal (IN) administration
    - Naloxone 1mg/ml 2ml Pre-filled syringe (PFS), 10 pack, NDC 76329-3369-01
    - Nasal Atomizer

Vendor	Item Number	Contact
Professional Hospital Supply	392322	707-429-2884
Cardinal	MAD 300	800-964-5227
Healthcare Logistics	17474	800-848-1633
Amazon	MAD 300	Amazon.com
American Medical	MAD 300	888-988-5350
Teleflex	MAD 300	919-544-8000

### Rescue breathing mask (optional)

- CPR Life Mask Face Shield, Healthcare Logistics, Item #7296-01

### Naloxone Overdose Rescue Kit Bag (optional, recommended)

- Kelley-Ross Pharmacy, 206-324-6990
- [www.anypromo.com](http://www.anypromo.com), item #680291, customizable
- Any other pouch/bag vendor

- Prepare a demo kit for instruction
- Sign-up to be part of a naloxone locator (e-mail [info@stopoverdose.org](mailto:info@stopoverdose.org))
- Prepare patient education materials. One sample can be found at [www.prescribetoprevent.org](http://www.prescribetoprevent.org)
- Prepare materials to let prescribers and patients know that they can get take-home naloxone at your location.
- Train your pharmacy team on take-home naloxone and how to handle patient/provider requests
