ABOUT KELLEY-ROSS

Kelley-Ross is made up of a group of pharmacies in Seattle, WA. At Kelley-Ross, we are innovative, exciting, and we are pushing the boundaries of what pharmacists can do. We are not the norm. We are creating the norm for tomorrow. Accordingly, our residency program is designed to challenge you as a resident, push your own limits, and think outside of traditional practice.

We say it a lot... Caring Is In Our Chemistry. And we mean it. Everything we do, from innovations in HIV prevention, in-home medication coaching, long-term care, and compounding, we do because we are driven to improve our patients' lives

REASONS TO CHOOSE KELLEY-ROSS

1

Multitude of Practice Settings

Even though we operate as a community pharmacy practice, our locations span across the clinical, compounding, in-home, and long-term care sectors.

2

A Balanced Work Schedule

A typical week for a resident is structured as roughly: Two days clinical/patient care, one day project management/development, one day staffing, and one day flex (leadership opportunities, precepting students, etc.).

3

Nationally and Locally Recognized

Our practice has received national recognition through the 2016 APhA Pinnacle Award for Group Practice. Additionally, our preceptors have also been acknowledged by the Washington State Pharmacy Association for various honors including Pharmacist of the Year, Excellence in Innovation, and Distinguished Young Pharmacist of the Year.
